in Association with
Bathinda Psychiatric Forum (BPF)

Venue:
Auditorium
All India Institute of Medical Sciences (AIIMS), Bathinda

Invitation

This is our pleasure and privilege to extend you a warm invitation to attend the Annual Mid-term CME of the Indian Psychiatric Society- North Zone 2023, which is being organized by the Department of Psychiatry, AIIMS Bathinda in association with Bathinda Psychiatric Forum (BPF) on 19th March 2023 (Sunday).

The theme is “Revisiting Depression”, and it will be a one-day program.

Introducing the topic, the modern definition of “Depression” has evolved over past two and a half centuries from the lucid writings of authors such as Cullen, Pinel, Esquirol, Maudsley, Griesinger and Kraepelin. The journey from “melancholia” to “depression”, has been entrancing. Depression presents itself in hues of different strokes when viewed from the prism of trans-diagnostic approach. The seasonal pattern observed in depression further intrigues us to seek plausible biological underpinnings for this folie. Although, empathy-based mentalist processes translating into discernible neuro-biological elements are not yet clear, but their utilization for psychotherapeutic treatments has stood the test of time. The revolution in the field of psychopharmacology and somatic therapies have transformed the management of depression. This academic program will bring to fore and refreshen our knowledge on the various aspects of depression from basic concepts to the management. The CME will be an academic feast graced by eminent subject experts who will address the gathering. We await your active participation and presence.

With warm regards.

Organizing Team,
Bathinda, Punjab
