- Advanced 3D 4K System with NIR/ICG
- Live Demonstration
- Detailed discussions with renowned National Faculty
- First of its kind Workshop in the region
- PG Quiz 1<sup>st</sup> & 2<sup>nd</sup> Prize

# Invitation

Dear Friends,

The problem of morbid obesity & its complications, including DM-II, is on the rise. Bariatric surgery or weight loss surgery has prevailed in treating the same over the past decade. The indications of this surgery have expanded over time and now the surgery is known by the name of Metabolic and Bariatric Surgery. There are selected departments/division in large hospitals dealing exclusively with bariatric surgery. There are dedicated books on this subject as well.

However, this field of surgery has been overlooked as a part of postgraduate curriculum in most of the medical colleges across the country. All India Institute of Medical Sciences (AIIMS), Bathinda, along with Foundation for Obesity Research and Metabolic Surgery (FORMS) has taken this initiative to start a Bariatric surgery program to cater to the immense need of the people in region suffering from Obesity & its subsequent morbidities. This program will also sensitize and stimulate the minds of budding surgeons towards bariatric surgery.

The CME shall focus on providing comprehensive knowledge about bariatric surgery. There will be live operative workshops where two standard procedures will be demonstrated. After each procedure there will be detailed discussions and lectures focused on the same. Ample time shall be provided for questions and answers after each talk. There will be sessions on patient counselling, peri-operative work up, post-op management and dietetics. Bathinda is one of the oldest cities in Punjab with a rich cultural heritage. It is located in a high-volume drainage area catering to 3 states, Punjab, Haryana & Rajasthan. Development of Bariatric Surgery program at AIIMS, Bathinda will ensure advanced state of the art care to the large population that resides in the region.

**We look forward to welcome you at this Live Operative Workshop & CME.**

**Dr. Mahendra Pratap Singh**
