Terms and Conditions

1. The quotation must be in the form furnished by Procuring Entity and should be free from corrections/erasures. In case there is any unavoidable correction it should be properly attested. If not, the quotation will not be considered. Quotation written in pencil will not be considered.
2. All India Institute of Medical Sciences (AIIMS), Bathinda reserves the right to accept the offer by individual items and reject any or all quotations without assigning any reason thereof and does not bind itself to accept lowest quotations.
3. Manufacturer's name and country of origin of materials offered must be clearly specified. Please quote whether your organisation is large scale industry or small scale industry. If you have NSIC/MSE/MSI/DGS&D Certificate, please attach it to the quotation. Mention your registration details.
4. Complete details and ISI specification if any must accompany the quotation. Make/brand of the item shall be stated wherever applicable. If you have got any counter offer as suitable to the material required by us, the same may be shown separately.
5. Samples must be submitted where specified along with the quotations. Samples must be carefully packed, sealed and labelled clearly with enquiry number, subject and sender's name for easy identification. Rejected samples will be returned at your cost if insisted.
6. All supplies are subject to inspection and approval before acceptance. Manufacturer/supplier warranty certificates and manufacturer/Government approved lab test certificate shall be furnished along with the supply, wherever applicable.
7. AIIMS Bathinda reserves the right to modify the quantity specified in this enquiry.
8. The prices quoted should be firm till the supplies are completed. Please quote the rates in words and figures. Rates quoted should be free delivery at destination including all charges otherwise the quotation is likely to be rejected. Prices quoted for free delivery at destination will be given preference. If there is no indication regarding the FOR, in the quotation, then it will be considered as FOR destinations. Price quoted should be net and valid for a minimum period of 90 days from the date of opening of the quotation.
9. Delivery period required for supplying the material should be invariably specified in the quotation.
10. In case your quotation is accepted and order is placed on you, the supply against the order should be made within the period stipulated in the order. AIIMS Bathinda reserves the right to recover any loss sustained due to delayed delivery by way of penalty. Failure to supply the material within the stipulated period shall entitle Procuring Entity for the imposition of penalty without assigning any reasons @ 0.5% (half percent) of the total value of the item covered in order as penalty per day subject to a maximum of 5% (five percent) unless extension is obtained in writing from the office on valid ground before expiry of delivery period.
11. If the deliveries are not maintained and due to that account Procuring Entity is forced to buy the material at your risk and cost from elsewhere, the loss or damage that may be sustained there by will be recovered from the defaulting supplier.
12. Dispute clause: Any dispute relating to the enquiry shall be subject to the jurisdiction of the court at Bathinda only.
13. Our normal payment terms are 100% within 30 (thirty) days on receipt and acceptance of material at our site in good condition.

Technical Specification of Balloon Sinuplasty Catheters

S.No.	Name	Specifications
1	Sinus Balloon Catheter	• Should have a non complaint Balloon with puncture resistance. • Working length of 19cm. • Flexible shaft. • Marker bands for endoscopic & direct visualization. • Separate port for inflation/deflation and a separate port for introduction of the guide wire. • Balloon should reach its stated size at 7 Atmosphere and should withstand 12 atmospheric pressure. • Should be USFDA/CE approved.
2	Sinus Guide Catheter	• Should have a non malleable stainless steel shaft. • Clear distal portion for endoscopic visualization of balloon sinoplasty instrumentation and a colored ; traumatic tip for endoscopic visualization. • Consist of a suction barb and hub for clearing thin secretions. • Lumen to introduce balloon catheter. • Compatible with guide handle to enable single handed operation of the scope and Balloon sinoplasty kit. • Compact in size to access tight nasal anatomy.
3	Sinus illumination catheter	• Provide transcutaneous illumination for precise confirmation of access to paranasal sinuses. • Angle for ease of search in tight nasal anatomy. • Floppy atraumatic tip to avoid damage to delicate nasal structure. • Direct torque control with 1:1 ratio to enable precise placement of guide tip in the nasal anatomy. • Working length of more than 70 cm. • Constructed of sturdy material to withstand multiple sinus access. • Two optical channels to ensure bright transcutaneous illumination. • Compatible accessories for all major light sources.
4	Sinus guide handle	• Compatible with different sinus guide catheter. • Malleable to suit different users. • Hand tight grip surface for better control and stability. • Lumen to introduce balloon sinus instrumentation.
